CANADIAN PACIFIC CROP REPORT VERY FAVORABLE

WINNIPEG — Weather conditions during the past week have been entirely satisfactory for spring activity of all kinds throughout the west with the result that all wheat has been completed and (cattle grain) rapidly nearing the stage. According to the west crop report issued here today by the Agricultural Dept. of the Canadian Pacific Railway, the slight delay in spring has been made up in the past three weeks of favorable weather. A feature of the present season is that work has been uninterrupted through out the west so far. At the present time farmers are actually ahead of last year, with conditions every bit as favorable.

Wheat is well up and away to a good start, with oats and barley showing in many localities. Generally there is sufficient soil moisture, but rain would be welcome in all districts, especially on freshly worked and seeded soil. Localities have had showers, but all night rains are needed to start everything well.

There are no reports of any frost for some years, and dry weather has made it possible for them to be used almost everywhere.

Grass is in need of rain and livestock is showing improvement with new pastures. Although there has been considerable high winds through out, soil drifting has not been as common as in previous years.

Lack of rain and high winds in Alberta have dried out the surface soil, with the result that in some districts germination is somewhat un- even. Recent rains, however, have relieved the situation somewhat. Light showers experienced over the week end on the 26th points on the Atlantic coast, and over the entire Canadian division.

In the Edmonton division heavy showers with some hail fell on yesterday, and in a few hours rain fell from Waskia to Dayville, and light showers between Edmonton and Edmonton. Heavy general rain was needed. All wheat is in the ground, and about 85 to 90 per cent of oats and barley. Soil drifting has caused considerable damage to the crops. All last year's threshing has been completed, and increased prices have done much to increase the hay and stock and rodents on crops left unthreshed during the winter. Farmers generally have been agreeably surprised with final results.

LIVE STOCK NOT SHIPPING TO BRITAIN

WINNIPEG — Since the 29th, was to obtain the removal of the British cattle embargo, it is a queer commentary that in the last ten months not a single head of cattle has crossed the Atlantic from Canada to the British market. This has been due to the active domestic market and the buying in the United States and in the last ten months, or more than ever to get to British in any one year.

The depletion of Canadian stock in the last ten years following 1920 are also a factor in the situation.

While the Department of Agriculture, however, has had no trouble with export shipments, there has been some difficulty about the domestic transportation situation. The department, therefore, called two conferences to consider the prevention of losses in livestock shipments during transportation. The first conference was held in eastern Canada on May 16 and the other will be held in western Canada later. The livestock and transport interests have been asked to meet the departmental officials at these conferences. The chief losses are due to overloading of stock, improper separation of stock in mixed cars, the mixing of hocked and dehorned cattle and the shipment of

PRINCE CAROLUS CHERMAR, a young man, is the beautiful son of Prince Carolus of Romania. He is here shown, the son of a friend in England shortly before the war.

Golf Club

The annual team match, President's Vice President will be played on Sunday, June 3, or for those unable to play, on Sunday, Wednesday May 30th will be satisfactory provided the Captain is notified before the game and the cards are turned in promptly signed by the opponent. The draw is as follows:

- | | | |
|----------------|-----|----------------|
| President | Vs. | Vice-president |
| J. Van Tighem | | T. E. Wright |
| Alex Gray Jr. | | F. J. Dunn |
| G. G. Giron | | M. A. Hollings |
| A. W. McKelvie | | Wm. Gray |
| Leslie West | | V. Kennedy |
| C. Pederson | | W. Kaywell |
| Wm. Gray | | Archie Gray |
| H. Hollings | | Sid Moore |
| E. N. Hildy | | D. A. Perry |
| R. S. Stockton | | E. W. Patrick |
| A. Pierson | | G. Whitfield |
| J. Martin | | J. Kinnest |
| H. Brown | | H. McPherson |
| G. Jones | | A. Strathmore |
| P. Patterson | | G. G. Quinn |

With the first named player please arrange with their opponent as to the time of play, and if any are unable to play, kindly notify the Captain, who will endeavor to arrange for another player to take their place. This is a hole and hole play.

PRINCE OF WALES IS PATRON OF BIG BROTHER SCHEME

LONDON — The Prince of Wales has become patron of the Australian "Big Brother" movement. Under which many English boys have gone to Australia in the past two years, each boy being under the separate guidance of some Australian of standing who is a "Big brother" to the boy. It is expected that 150 boys will be sent to Australia in the present season under the Big brother movement.

In connection with the migration of boys from Great Britain under the Big brother movement, it was stated by Sir George Fairbairn, Melbourne, Australia, vice-chairman, of the Big brother organization, a few days ago that only boys who already are on Australia's registration list for 1928 will be enabled to migrate this year, and boys applying from now onwards will not be enabled to sail until 1929. The 1928 list is full already. Sir George said.

cattle in open cars in severe winter weather.

INTER-SCHOOL SPELLING CONTEST

The annual inter-school spelling contest, held under the auspices of the Lower Valley Local of the Alberta Teachers' Alliance, was held at Carleton Place Friday evening, May 25th.

A large attendance from Strathmore, Carleton and surrounding districts signified the interest which is taken by the general public in this event.

There was a contest for each grade from two to nine inclusive, and one for grades X and XI combined. Strathmore and Carleton schools entered teams in all contests, while Orange Valley, Carleton and Moss high schools entered only one event.

The names of the schools winning each event were: Orange Valley, grade II; Strathmore, grades III, IV and V; Carleton, grades V, VII, VIII, IX and X and XI.

The teachers wish to thank all those who helped to make the evening a success, especially the people who kindly loaned their cars for the conveyance of children from Strathmore, and to Mrs. Mutch who self-offered as announcer of the words.

The musical numbers contributed by Miss Field and Miss McLeod were much enjoyed, as were also the orations on "Canada's Future" by Zella Giles and John Garrett.

A feature of the evening was the contest for the best speller in grades X and XI, for which Mr. W. S. Giller awarded \$5.00. This was a written contest of twenty-five words, and was won by Zella Giles, of Carleton. Names of contestants on the winning teams will be published next week.

BUSY MONTH FOR TELEPHONE DEPARTMENT

AN INCREASE of 154 exchange stations and 93 rural stations, or a total of 247 new stations in operation during the month of April, 1928, is reported by the Provincial Department of Telephones. A new office, was opened on April 16 at Newtow and construction is proceeding on new exchange buildings at Lloydminster, High River, Barrhead and South Calgary. Line extensions are being undertaken to Willington, Two Hills, Hobbie, Dewar and other points. The new towers on the C.P.R. Cutcliffe, Whitford branch. Collections for the month of April show a gain of \$17,000 over those of the corresponding month in 1927.

Ramsay MacDonald Deals With Immigration Question

LONDON — Ramsay MacDonald, leader of the Opposition, in an article on "The Problems of Population" in the Sunday Times, says that the British, Poland, Italy and Great Britain have had their social difficulties intensified by the restricted immigration policies of the United States, Canada and Australia. The ex-Prime Minister and leader of the Labor Party does not deny the right of these countries to protect themselves against the influx of undesirable aliens, although the barriers may work an injustice to thousands of good emigrants and be politically and morally indefensible. He says that it would be hard to maintain the proposition that the world is becoming overpopulated, that "we are crossing the threshold of the grimest of all struggles—the race for subsistence."

The great open spaces to which the over-crowded European nations can look for relief, he points out, are controlled by Great Britain and her dominions and the United States itself governing "masters within their own house," who insist upon keeping a

DEATH OF MRS. HILL

The death of Mrs. Hill took place at the home of her son, Leonard Hill, on Monday, May 28th.

Mrs. Hill had been ill for several months and had reached the advanced age of 77 years.

She was born in England, and came with her husband and family to the Strathmore district about seventeen years ago, where she made many friends through her acts of kindness among her neighbors. Her husband predeceased her about eight years ago.

Mrs. Hill is survived by three sons, Leonard and Charles of this district, and George, who resides in California, and one daughter, Mrs. Campbell, of Edmonton, to whom the sympathy of the community is very generally extended.

The funeral will be conducted by Mr. W. C. Chubb on Thursday afternoon at 2 o'clock to St. Michael's & All Angels Church, after which interment will take place in Strathmore Cemetery.

TREE PLANTING

By Tony McKinlay

It is likely that every Elk lodge in the province of Alberta will shortly be able to report that at least a start has been made this year, if not last, in a tree planting program. Several lodges have reported that in 1927 their program got well under way and that this year further work will be done. Other lodges report that they are going to turn the first sod in 1928.

After three years of organization work, I am convinced that the thing which is most necessary to the perpetuation of the Elk movement in some community activity of a worthwhile character. Most lodges in Alberta have certainly made history in their different communities, although unfortunately, many of them have been too modest or their historians have been too busy to record their good deeds in The Canadian Elk. Some have sponsored community halls, some, skating rinks, some have been pool or billiard, playgrounds, and still others a number of other major or minor activities.

The thing that first touches a real positive chord in the hearts of those

firm hand upon their development. Assuming, he says, that pressure of population exists within the frontiers of European nations and that outside, such as France has been able to give the Italians, Germany to the Poles and Scotland to Ireland (this last being a much more important matter than people yet understand) were to be closed, a very serious situation would arise.

"Where the nation is a strong one, in order to relieve its difficulties, it would undoubtedly annex territory as Italy is sometimes suspected of contemplating in northern Africa and Asia Minor. This might lead to war, not merely between the people who wish to acquire and those who resist, but between the former and other interested European states."

EMPIRE DAY CELEBRATION A GREAT SUCCESS

MAYOR L. D. TAYLOR of Vancouver, one of the leading figures in the police investigation in that city.

The highest terms of praise only are adequate to describe the excellence of the various floats that assembled to form the "Parade of Empire" on Empire Day.

Unique, elaborate and fitting decorations and features were used, and the judges found themselves confronted with a well-nigh overwhelming task.

The combined floats made a very imposing parade and well worthy of a much larger center than Strathmore, once again giving evidence that the Strathmore school staff (by whom the floats were planned) is second to none.

First, the idea, then the plan, and then the execution required much thought, time and work on the part of the various teachers and their assisting pupils. That the result must go far in stimulating the love of our Empire we feel sure, and feel safe in predicting that there will not be many groups so conscientious among the pupils of the schools of Strathmore and surrounding district. The floats in order of procession were: The British Isles (Great Scotland, Ireland and Wales), Canada, Australia, The Irish Free State, Africa, The British Empire Service Post. This latter won the first prize and was a very fine float. Like the Empire, it was very broad in its dimensions, and seemed firm and sure in its foundation. The combining of the colors on this float were very effectively arranged. Britannia crowned, held the central place on the float. While around her as though reaching out to the four points of the compass were represented the various nations. Red Cross nurses, Boy Scouts and Girl Guides. Forming a sort of guard of honor to this float was an officer mounted, leading, and the rear was "guarded" by two mounted soldiers.

Coming Events

Inter-school Sports at Carleton Place June 1.

Hill's Theatre, Friday and Saturday, June 1st and 2nd, "Amie Laurie"; Tuesday, June 5th, "Spoilers of the West."

with whom I come in contact is not the beautiful little club that some lodge has provided for its members, but rather the accomplishment of some humanitarian work or the providing of something which is of interest or use to the women and kiddies of the community.

I once visited Kamloops, and while in their beautiful park a little while told me with pride that it was the Elks who made that park so beautiful. He said that his duty was not an Elk yet, but hoped he would soon be one, because all the little boys and girls liked the Elks. Since then, the Elks have built a magnificent club house, but the real monument to the Kamloops "Elks" is the park. It delights and benefits thousands, and perhaps when the club is gone and forgotten some kiddie, yet unborn, will proudly say, "Mother says that the Elks started this park, and dad was an Elk."

So it will be with the trees that are planted. A four-foot tree planted this year will be a nice little shade tree for the kiddies in five short years. It will beautify the boulevard, the cemetery, the town or rural school grounds, and each tree will bear silent testimony to the usefulness of Elk men, ideals and activities. And the testimony will not be silent, for each other kiddie will say "The Elks planted these, and dad was an Elk."

—Canadian Elk

YOUTHS OUT FOR 15,000 MILE HIKE

TORONTO — Eugene Lambert, aged 22, and Robert Charnick, aged 17, both of Montreal, arrived in Toronto on the first lap of a 15,000 mile walk. They left for Windsor, proceeding to Los Angeles, Mexico, Panama, Florida, and back to Montreal. They hope to complete their trip in a year and a half.

George Mathew Adams: "There are more ideas blossoming around in this world than there are men and women to pick them."

Australia, too, was an exceedingly artistic float. Here six young girls all dressed alike in robes, costumes of blue, green and white, with a lot of red, white and blue, and wearing hats made to represent the rising sun, made a very effective ensemble, while around them were painted the various parts of Australia.

The British Isles represented an immense amount of detail, so much that only on closest scrutiny was it all observed. One corner of the float was allotted to each country. From a central ribbon decked with streamers stretched to the various corners, each bedecked with the appropriate (Continued on page four)

Inter-School Sports Carleton June 1st.

SCHOOL COLUMN

We wish to thank very heartily the following for furnishing transportation for the spelling teams to go to Carleton Place: Messrs. Patrick, Shrimpton, Cradock, Lilly, Pederson, Gunn, Cotti, Miller, Weir, Perry, Lydell, Jones and Ridley.

Next Friday, June 1st, is the date of the inter-school sports in Carleton Place. The problem of getting cars for approximately sixty pupils is going to be a very real one. Any offers of help will be most acceptable. The children will have to leave Strathmore at about 12:30 p.m.

A group photograph of the school children was recently taken by a Calgary photographer. Proofs are now on hand. This photograph is a very good one. It sells for \$1.25.

Just two weeks remain before the commencement of Departmental examinations. May we again impress on pupils the absolute necessity of their very best efforts during the few remaining days, if any measure of success is to be achieved.

There are so many who should be thanked for their part in making the May 24 celebration the success it was, that it is difficult to know just where to begin. The staff of the Strathmore school wish to extend their very sincere thanks to all those who helped in a variety of ways. We think a word of commendation should be offered to the children of both the town and rural schools who took part in the parade and other activities, for their excellent deportment. A great deal of criticism is heard these days, which is not very flattering to the younger generation. On this occasion, at least, the children showed that this adverse criticism is unjustified. On the whole we feel that both town and country may feel proud of the children who are growing up in our midst.

NAMAKA

The C.G.T. Group of Namaka meeting was held at the home of Mrs. H. Thomson on Saturday, May 26th. An unusual feature of the meeting was the presence of a number of guests. After a short business meeting, Margaret M. Powell B.S.E. (H.E.), gave an interesting talk on "Table Setting and Serving." At the conclusion of the demonstration the hostess served ice cream and cake.

The young son of Mr. and Mrs. Siddons, who has been suffering with ear trouble for a month, was taken to the Calgary hospital for X-ray, and it was found he had mastoiditis and had an operation, also having his tonsils and adenoids removed. He is progressing as well as can be expected.

Mr. and Mrs. Alex Mon (son of Mr. and Mrs. Watson over Sunday).

Miss M. M. Powell, of Calgary, was a weekend guest at the home of Mr. and Mrs. H. E. Thomson.

I Saw Last Week

W. S. PATTERSON sleeping alone Centre St., Calgary, carrying some mail. **ROBT WEST** enjoying life in the C.P.R. restaurant at Calgary. **RECALL RED** explaining to a lady friend the good points in a winning race horse at Victoria Park on Empire Day. **CHARLIE KEELING** remarking that he was too lazy to go to Calgary and put a few "bobs" on Yorkhorse. "PAT" reading in the Calgary papers that the girls were building a "bach-eh-lors home" and wondering why they never called the men's residence an "Old Maid's Home". **HEIDIE ELLIS** putting Jim Morris through his paces at the shop. **PRINCEPAL CROWTHER**, the busket man in town, leaving cars to take his Juvenile athletes to Carletonland for the sports on June 2. **THE CHILDREN** of Strathmore meeting the approval of the public by their good conduct on Empire Day. **MARSHALL KIMPTON** giving Bill Saunders some serious advice before the fatal day. **BILL WILKINSON** explaining to Percy Parish what a good effect the rain on Sunday night would do to his crop. Just as sincerely as if Percy did not thoroughly understand the benefit of the moisture. **PROPRIETOR DUNCAN**, of the Calgary and Eastern Bus Co., busy making changes in some of his time schedules. **PITCHER KOSMO** finding the plate at the ball game hard to locate. **GEN GUNN** was elected President of the new club that was organized on Saturday night, and **Bobbie Hamby** vice-president. **ERNIE WHITEHEAD**, student at the high garden work admiring a beautiful "bleeding heart". **D. N. GARDNER** arriving in the bank about taking a best niche. Most other fellows glad to get them whether they are straight or bent. **JIM MORAN** calling in a sack of rubber on Saturday night. **CHARLIE KEELING** looking over the peach crop at Victoria Park and finding a few of the nicest sweet ones—some variety named **Mac Loden** was the best he had seen for some time, and far superior to the varieties that they are raising at Carletonland.

OCEAN-TO-OCEAN PLANE AND RAIL LINE PLANNED

NEW YORK—Aeronautical and rail way leaders here are understood to be at work upon an arrangement which will unite airplane and rail transport systems and establish a 48-hour transcontinental passenger service.

Reports in official circles here link the names of the **Boeing** and **Rockwell** with the road and the National Air Transport in the arrangements. It was declared yesterday have been made in the **Acheson**, **Topkins** & **Santa Fe** rail road, the **Boeing Air Transport** and the **Western Air Transport** Companies, with a view to establishing such a system.

Formation of a new and independent company, with a capital of \$5,000,000, is projected in connection with the undertaking, which is expected to revolutionize travel between the Atlantic and Pacific coasts. It is understood that **C. M. Keyes**, president of the **Curtiss Aeroplane and Motor Company** and chairman of the board of directors of the **National Air Transport**, will head the new corporation.

In Planes During Day
The projected arrangement would permit passengers to travel by airplane during the days and by Pullman at night. Through this system the fastest time for rail transit from New York to San Francisco would be cut in half. The time of travel across the country would be only 17 hours behind the schedule of 31 hours now in operation for air-plane mail.

On the west-bound route, it was said, passengers would go by train as far as Chicago or Columbus, O., and then by air either to Wichita, Kan. or St. Louis. Again they would travel by air to some western junction of air and rail lines, from which an airplane would complete the journey to the Pacific coast.

CAMERA FOR USE 30,000 FEET ABOVE EARTH PERFECTED

NEW YORK—An aerial camera with a range of more than five miles, designed to photograph areas as large as four square miles, has been built for the army air corps, according to the manufacturers. It will receive its first tests here, within two weeks and will be sent then to Wright Field at Dayton, O., where it will be installed in an army plane for extensive experimental photographic work.

The camera was made for use at altitudes at which photography never before has been attempted, and beyond the range of anti-aircraft guns. Picture taking at heights of 30,000 feet or more will be possible, **Parbair** Corporation authorities said.

MAGICIAN SCORES VICTORY
OVER MANY MEDIUMS

NEW YORK—A magician with a big bag of tricks stood victor over countless mediums in having produced what Mrs. Harry Houdini declared was the best spiritistic manifestation of her late husband she had ever seen.

Joseph Dunninger, the magician undertook the experiment to disprove the spiritualistic claims of Nino Rocco, a self-styled medium, who had sought to bring to earth the spirit of the late magician and thereby win a \$21,000 prize offered by Science and Invention.

Dunninger's success was given at the offices of the publication several days ago and the best he could do after five hours was to produce a voice purporting to be Houdini's which seemed to have nothing of importance to say.

Dunninger Thursday night before the same audience of thirty, some newspapermen and women, and under identical conditions, produced a luminous ghost resembling Houdini, a message in Houdini's handwriting, some snapshots of oral conversation as a paraffin cast of an ectoplasmic hand which it is to be examined for Houdini's finger-prints.

Mrs. Houdini declared the handwriting was "Harry's to the life" and the luminous portrait the best she had seen yet, although she had attended many seances in hope of receiving the code message her husband had given her and which he said he would try to transmit to her after death.

Dunninger was bound hands and feet, the knots sealed with wax, and after being searched was placed behind a curtain. Then within 20 minutes, writing appeared on cards and slates

that had been left in view of the audience, a tambourine went sailing through the air and finger prints appeared on modelling wax.

Frank Davenport, Pecora's manager, after viewing the performance with astonishment, asserted Dunninger had mediumistic powers even if he didn't know it.

"That accusation," said Dunninger hotly, "is not true. I give you my word everything you have seen here is a put-up job, accomplished without a particle of aid from any supernatural sources whatsoever."

ROCKYFORD

The Ladies Club will meet at the home of Mrs. Henry Kateringham on June 7th, at 3 o'clock. Each member is requested to answer the roll with a verse by Edgar Guest. An interesting program is arranged; one feature being the judging of dresses made by members of the club. The program committee asks the ladies to come and bring a thimble with them.

The Rockyford rafterpayers held a dance on Thursday, and the Jolly Boys orchestra furnished the music. Although the crowd was not very large, those who turned up had a good time.

On Friday of this week, June 1st, there will be a shower and dance for Miss Paula Fust, whose marriage to Mr. E. Kenny, of Redlands, takes place June 6th.

Miss Leah Carpenter, of Medicine Hat, is home visiting with her parents for a couple of months.

A baseball tournament held on Tuesday, May 24th, was well attended. Rosedale, Imperial, Sunline and Rockyford competing. The first game was between Rosedale and Imperial. Rosedale winning 11-7; the next game Rosedale and Rockyford, Rockyford winning 4-3; the final game between Rosedale and Rockyford was won by Rockyford 12-7.

Mr. and Mrs. Wm. Eubel and Laura Eubel returned to Montana last week to look over the oil fields. They report good roads and lots of oil there.

Quite a number of Rockyford folks have been investing in new cars this past week.

McNARY-HAUGEN FARM RELIEF BILL IS AGAIN PASSED BY U. S. HOUSE

WASHINGTON, D. C.—The house passed the McNary-Haugen farm relief bill, carrying the equalization fee provision which caused President Coolidge to veto the bill a year ago.

The vote was 204 to 121. This vote was short of the two-thirds which would be necessary to pass the bill over the president's veto. More than 100 congressmen did not vote.

The senate passed the bill a few weeks ago. The house has amended the measure slightly, and after these differences have been adjusted, the measure will be ready for the president. It has been strongly intimated at the White House that President Coolidge will veto the bill as he did a year ago.

Shortly before the bill was passed the house adopted an amendment, urged by cotton growing states which would prevent the farm board from assessing an equalization fee on any commodity unless the commodity council provided in the bill approved it.

The bill, a football in congress for several years, has been supported by Vice-President Dawes and Governor Lowden, of Illinois, and has been a factor in the consideration of them as Republican presidential candidates. Secretary of Commerce Hoover, adhering to the policy of the Coolidge administration, has opposed the bill.

The bill's central feature is the equalization fee plan to finance the buying up of surplus crops to be dumped abroad at a loss if necessary. The bill is to be less to be absorbed through a fee charged back to the farmers on a pro rata basis. President Coolidge has opposed this as being unconstitutional, and likely to create a government price fixing bureaucracy. Many in congress have supported the bill some, with reluctance, upon the theory that whatever its shortcomings practically everything else has been tried without bringing relief to the farmer.

The bill also would set up a \$100,000 revolving fund to be used by co-operative organizations in the controlling of farm products. The bill provides that this plan shall be exhausted before resorting to the equalization fee. The president favors this portion of the bill.

MOTOR FUEL FROM SISAL

MARINIANE, France.—The production of motor fuel from plants is a device that has been brought within measurable distance if practical usage through the ingenuity of a French chemical expert. Le Petit Matin newspaper was possibly the first to draw attention to the utilization of certain tropical plants for the production of a motor fuel which, produced on the spot, would cost much less than petrol imported from France.

But the idea has been current for a long time. At the exhibition held in Marseilles there were shown many of the motive power for which was supplied by a fuel distilled from ground nuts, maize and bananas. This was a forward step, though ground nuts, Indian corn, and fruits are commodities with a substantial market value, and the resultant economy, in comparison with petrol, was much less than expected. It was necessary, therefore, to find a suitable plant, valueless in itself, and lending itself

ready to cultivation and harvesting.

Now, such a plant exists; it is the agave or sisal plant, which is cultivated on a large scale throughout North and West Africa, from Algeria to the Congo, yielding a very strong and supple fibre for the manufacture of rope, hawsers and matting. The fibre of the sisal plant is so strong that it is used in the manufacture of the most reliable and durable of all motor car tires.

The credit of solving this problem is due to Mr. Fougere, a graduate of the Ecole Polytechnique in Paris. The result of Mr. Fougere's experiment has been to demonstrate that it is alcohol, derived from the sisal plant, which makes the most practical substitute for petrol or benzene in the African colonies. The leaves of the plant, which contain the fibres, constitute a waste product very bulky to transport, and which, instead of being thrown into the sea or burned, as is the case today, could be treated by the unique process which Mr. Fougere obtained. The yield from one acre would be from five to six hundred pounds of fibre and 90 gallons of motor fuel. Under certain conditions the latter may be used as a fuel without further treatment.

INCOME TAX COLLECTIONS ARE MUCH BETTER

OTTAWA.—Net income tax collections amounted last month to \$5,183,444.42, against \$3,235,701.40 in the previous April—an increase of \$1,947,743.02.

Canadian exports in April were seven per cent more than a year ago, while imports were higher. Revenues from customs and excise were lower by nearly a million dollars in April last than in April, 1927. Revenues from income tax was nearly two million dollars more last month than in April a year ago, according to the monthly statement issued by the department of national revenue today.

Exports in April amounted at \$18,970,000, against \$17,337,000 in the same month last year. The decline is largely accounted for by the outward movement of wheat, which fell from 20,000,000 bushels to 8,000,000 bushels in April, 1927, the value of imports in April amounted to \$7,471,000, while in April, 1927, the value of

imports was \$7,427,000.

Duties in April totalled \$12,589,514, which is an increase of \$1,161,136 over the same month last year. Revenue from excise taxes was cut almost in half, falling from \$5,757,000 in April, 1927, to \$2,673,000 last month. The variation is probably accounted for by the excise changes announced in the budget. Excise duties last month amounted to \$4,528,000, which was an increase of \$269,000. The grand total of revenues from customs duties, excise taxes and excise duties amounted to \$19,607,514.42, as compared with \$20,589,249 in April, 1927, or a decrease of \$981,734.47.

DID YOU EVER STOP TO THINK?

By Edson R. Waite,
Shawnee, Oklahoma.

THAT before you can accomplish much it must have teamwork. Its essence must be CO-OPERATION. They must show a willingness to help one another and all together work for a better town.

THAT the towns that are going ahead the fastest are the ones that have shown this spirit of co-operation. THAT in many towns part of the citizens pull in the other part of them, resulting in dislike and distrust among the ones that should pull together.

THAT there is something good about every man. If people knew each other better they could pull together better.

THAT any town must sell itself to its citizens before it can sell itself to its neighbors.

THAT a spirit of co-operation in the home town must be in the mind and crystallized into every thought and action of every individual in order to make their town better. THAT a town must be awake to its opportunities and STAY AWAKE.

MANY TOWNS are having "growing pains"; these growing pains are making them realize the many handicaps they have been working under. Many of them are painful—they are painful to those individuals who have been doing so much to hold back the growth of the home town.

Seven Seas Traversed

We Lotus Eating Tourists

Thrillingly Interesting China

Hawaii Would Inspire About Our Hearts

Our Floating Home

We passed in luxurious comfort, free from any care or irritating responsibility and absolutely without one disturbing incident from continent to continent," stated Lady Williams-Taylor on her return from a world cruise on board the Canadian Pacific liner, the "Empress of Australia," during which tour five continents, twenty-one countries and twenty-six ports were visited and seven seas traversed.

"With sheltered ease," continued Lady Taylor, "we had unfolded to us the most penetrating magnificence and the somewhat repellent fantastical conditions of India and distraught, yet ever thrillingly interesting China. We steamed up and down the dangerous Pearl River, and saw first-hand the devastation of Canton. Mysterious Java, and almost unexplored Sumatra, held us spellbound. Singapore and its ever-

growing decks amazed us, and lovely Ceylon enchanted us. But Hawaii wound itself about our hearts and to its haunting 'Aloha Oe,' we saw it fade away through rosy recollections. Not only are the islands more than fascinating, but the Royal Hawaiian Hotel would tempt any traveller to return.

"After such a wonder tour of 123 days," concluded Lady Taylor, "we Lotus Eating Tourists have once again to face the realities of ordinary existence, but the untiring supervision and perfect organization of the mighty and far-reaching Canadian Pacific Railway and Steamship's protection and care were, indeed, with hearts full of gratitude and appreciation for our splendid cruise, for the constant and devoted attention of the cruise home—the Empress of Australia."

HEARD ON THE STREET

Doctor: "Your system is poisoned; you must get rid of your teeth."
Patient: "All right, Doc. Throw them away, you'll find them under the pillow."

An advertisement in one of our exchanges this week is headed: "It pays to paint." Yes, it pays its druggists.

A bricklayer said to a foreman on a new job: "I'd like to work here, but I can't find a place to park my car." The foreman replied: "I guess you won't do. This is a high-class job, and we want only bricklayers who have chauffeurs."

Ole Oleon, track-walker, was supposed to be testifying after a bad head-on collision.

"You say," thundered the attorney, "at ten that night you were walking up toward Seven-Mile Crossing and saw Number 5 coming down the track at 60 miles an hour?"

"Yah," said Ole.
"And when you looked behind you, you saw Number 5 coming up the track at 60 miles an hour?"

"Yah," said Ole.
"Well, what did you do then?"
"Aye, got off the track."
"Well, but, then, what did you do?"
"Veli, say to myself, 'Dis base hell of a way to run a railroad.'"

Dumb Dixie says: "My garage man wants to take the carbon out of my car, but I'm afraid to ask Dad to buy a new carbon."

"Fardon me," said Frank Clutchie, the novice as he trod on his fair partner's toes for the third time.
"It's perfectly all right," responded the young lady, "you see I'm a stumpy collector."

Lady Customer: "I want a neat and trim-looking pair of shoes, but they must have plenty of room in them."
Salesman: "Yes, I know just the kind you want—large inside but small outside!"

The teacher told her pupils to play at imitating animals. They were soon very busy, some were horses, some sheep, some cows and pigs. In fact everyone was trying to imitate some animal.

Mike, however, was sitting very still in a corner.

The teacher, thinking he was not

well, said to him: "Now, Mike, why don't you play?"

Mike said: "Hush teacher, hush, I'm a hen laying an egg."

A little boy from Canada who had never seen a negro was riding with his uncle in New York when he saw a colored lady.

"Why does the woman black her face?" he asked his uncle.

"That's her natural color," said the uncle.

"Is she black like that all over?"

"Yes," replied the uncle.

"Go, Uncle," said the lad admiringly, "you know everything, don't you?"

The Winnipeg Free Press says that a person who smokes twenty cigars a day pays \$25 a year to his country's revenue. Many a man with an income of \$5,000 a year does not pay as much by way of income tax.

Child (in Calgary bus to stranger): "Daddy, Daddy?"

Mother: "Hush, darling. That isn't Daddy. He's a gentleman."

"Does your wife attend church regularly?"

"Very. She hasn't missed an Easter Sunday since we were married."

A Cleburn man, who is very religious and also very businesslike, starts his prayers in this manner: "This is Blank speaking."

Bill Wilkinson (to Don McKay): "I say—could you take that yellow tie with the pink spots out of the window for me?"

Don: "Certainly, ad. Please to take anything out of the window any time."

Bill: "Thanks, awfully. The beastly thing bothers me every time I pass. Good morning."

Father (reading school report: "Conduct, bad; reading, bad; composition, arithmetic, history, bad—bad—bad! What is the meaning of this, Vincent?"

Vincent: "I can't understand it, Dad. Do you think it might be a forgery?"

Most any man can be an editor. All the editor has to do is sit at a desk six days a week, four weeks a month, twelve months in a year and edit such notes as this:

"Mrs. Jones of Cactus Creek is to open a shop at six o'clock and sell herself in the poultry."

"Joe Doe climbed on the roof of his house last week looking for a hole and fell, landing on his back porch."

WINNERS!

GIANTIC MERCHANDISE MART IN U.S. IS THE LARGEST SIZE OF THE WORLD'S LARGEST BUSINESS BUILDING

—

CHICAGO, Ill. May 16 (Special)—Chicago is to have a gigantic merchandise mart housed in its own building, which will be twice the size of the largest business building in the world. This mammoth structure, two city blocks in length, 18 to 22 stories high, is planned for the service and convenience of merchandise buyers of the world. It will cost \$20,000,000. Construction will begin immediately.

Within the walls of this huge edifice the retail merchants of the United States, Canada and foreign countries will be able to see, under one roof, hundreds of lines of the world's best merchandise.

The project will be the largest single development of "air rights" the privilege of building over railroad tracks. The property of the new building, except for its basements, begins 23 feet above "downtown."

This great Mart, which will house sales quarters and merchandising displays of several hundred of the country's foremost manufacturers, wholesalers and importers, will be located in the rapidly developing new river district, and will occupy a distinctly conspicuous position just across the river from Wacker Drive at Wells Street, where the center of the city structure will be visible for blocks.

The site was formerly that of the Chicago and Northwestern Railway Company's passenger station. The building will extend 724 feet on Kinzie Street, 577 feet on the river front and 224 feet on Wells Street with a diagonal frontage facing Orleans and Franklin Streets. It will be set back from the river about 80 feet to accommodate a broad upper level drive extending from Wells to Franklin. The main entrance of the building will face the river and the drive.

The Merchandise Mart will have a total floor space of about 4,000,000 square feet as compared with slightly

less than 2,000,000 square feet, which is the floor area of the Furniture Mart, the next largest building. Each of the highest main floors will have an area of more than 200,000 square feet.

The manufacturers' exhibit will include textiles, ready-to-wear, toys, shoes, gloves, corsets, millinery, silver, ware, glass, rug, knit goods, hosiery, shoes, men's wear, fancy goods, jewelry, art and antiques, sportswear, fur, furs, toilet articles, house furnishings, office equipment and scores of other merchandise displays. Among the largest tenants will be the whole sale and manufacturing sales departments of Marshall Field & Company.

On all floors of the Mart will be great corridors, with all the appurtenances of boulevards, more than 650 feet in length, on either side of which will be the shops displaying their wares.

These great corridors will be impressively treated architecturally and with the large space available it will be possible to house the selling activities and warehousing of many allied concerns on one floor, thus attaining the advantages of concentrated groupings.

Probably no building in the world will have such facilities for receiving and shipping merchandise as the new Merchandise Mart. The entire ground level below the street floor will be a modern freight station. Private trucks for incoming and outgoing freight will extend under the center of the building. The Chicago and Northwestern Railway will operate a long freight station for less than carload lots, as well as an outbound station, which will connect with all other roads through its new Provision yards. The merchandise as it comes into this big freight station will be loaded into high speed conveyors and transported immediately to the exact floor and aisle of the merchant for whom it is intended.

Connection will be made with the Illinois Tunnel Company's system of freight transportation, which has more than sixty miles of tracks beneath the

streets and buildings of the city, reaching all other railroad terminals. A river dock for vessels will connect with the south freight elevators of the building.

One of the interesting features planned for the Mart will be a Merchants' Club (in the tower of the building) with lounging rooms, reading and smoking rooms, where the retailer may relax and meet his prospects. The Mart will provide the retailer with everything but a place to sleep. He can go direct from the train to the Mart with his baggage. Here his hotel reservations will be taken care of, his baggage transported to his hotel and placed in his room.

Restaurants, lunch rooms and grills in the Mart will further economize his time. He will have the facilities of a barber shop and a branch post office; telephone office and public stenographers will afford him the opportunity to handle his correspondence without leaving the building. One of the best long telephone exchanges in the world will be installed in the Mart.

Many other unique features are being considered for the Mart, including an Assembly Hall, where trade meetings, business conferences and fashion shows may be held from time to time. As the plans are worked out, many novel features may be decided upon.

A THOUGHT FOR TODAY

Remembrance is the rosemary of life; kindness to the living is the golden chain that holds us humans together.
—Van Amburgh

THE TARIFF IS MAKING A SIDED PROBLEM

The Toronto Globe says the deputation of vegetable growers which called on the Government some time ago to ask protection against the dumping of United States products on the market got a sympathetic hearing from Premier King and his colleagues and at the same time learned something of the difficulties which a Government meets in attempting to handle such a problem. If vegetable and fruit producers and butter and egg men feel that they have a right to their market the consumers also think they are entitled to buy commodities as cheaply as possible, and are not slow to express this upon the Government. And as the Premier pointed out, producers of other goods of which the vegetable growers and consumers consider that if one class is entitled to protection so are they.

In connection with this appeal to Ottawa, it is interesting to note that the United States Senate passed a resolution on April 17 requesting the Tariff Commission of that country "to investigate the cost of production of white or Irish potatoes in the United States and in the principal competing country and to report its findings to the President of the United States." This is plainly aimed at Canada. The resolution, which was introduced by the Senator from Maine, stated that "the quantity of potatoes imported has increased from 44,000,000 pounds, valued at \$1,600,000, in 1923, to over 300,000,000 pounds, valued at more than \$5,000,000 in 1927." Much of this money helped to put the Maritime Provinces on their feet. Thus, while the vegetable growers in Canada seek a check on competition from the States, those of the latter country want a check on Canadian competition. With regard to the country as a whole, are both sides better off by continuing themselves as far as possible to the home market or by making something of an exchange of products as well as of money?

TOWNS GET REPUTATIONS AS WELL AS MEN

Work for and with your home town. Beautify it. Improve it. Make it attractive. Help make it the kind of a town that you really want to live in. The best advertisement of your business is the town you live in if it's the kind of a town it should be. Towns get reputations as well as men. Reputation makes reputation. Make your town's reputation one that will attract favorable attention. It will thus draw people and where people come there is prosperity. Help rid the town of one eyesore after another. Clean up vacant lots, and plant them in gardens. Make a cluttered up yard a disgrace and an unpleasant home approach. Cut the weeds, clean the streets and fix the sidewalks. Help public officials and pay your taxes without grumbling so that they may give the best service possible back to you. Make public opinion too hot for those who knock, refuse to cooperate for general good and who will not help our town should be one where folks are friendly, where progressiveness is appreciated, where good roads make it accessible, where proper sanitary methods are conducive to healthfulness, where attractiveness is considered an asset, where education fits for the future, where recreations are plentiful for all, where government is efficient and popular, where living conditions are good, where the helping hand is extended to the unfortunate, where employment is plentiful, where investments are sound, where tolerance is unknown, and church spires point the way to Heaven. That's the kind of a home town we want.
—High River Times

ELIMINATE BREEDING PLACES FOR MR. AND MRS. FLY

If there is no breeding place for flies there will be no flies. The almost total disappearance of stables from cities has removed a prolific source of fly reproduction. But so all the spots which assist the fly in preserving his species were in the vicinity of stables. Where there is filth there will be flies and where flies go there will come of the fifth accompany them.

Time was when flies were endured as an inevitable annoyance without an appreciation of the menace to health their presence is. They swarmed because no effort was made to eradicate them. That era is past but there are those still who tolerate conditions which in effect are not inimical to the interests of the fly. Not every house occupant can prevent flies from seeking entrance but everyone can keep them outside. It is within the province of all to refuse to purchase food products which are accessible to flies.

Were everyone to eliminate breeding places on his own premises and to stern and await, the fly soon would become as completely extinct as the monkeys of which we know only through their fossil remains. The fly is small but he makes up in industry and persistence what he lacks in size. He becomes a pest in an epidemic, threatens, yet too many of us tolerate the fly when we know his capacity as a disease carrier. Because he is so noxious we minimize the peril which he may transmit.

BUY FROM MERCHANTS NOT FROM PEDDLERS

The summer season, now at hand, brings with it an economic ill that annually takes a toll of thousands of ill gained dollars. It is the itinerant peddler, the house-to-house door bell ringer and those of his kind who travel from place to place plying their trade and imposing on the credulity of the unthinking, offering bargains in this and that which most always turn out to be inferior merchandise

Everything a car should be or do

CHRYSLER "62"

SEDAN \$1450

CHRYSLER "62" performance—
at its new lower prices re-emphasizes Chrysler "62" superiority.

62 miles an hour plus—smooth, easy miles, 7-bearing crankshaft in perfect balance. Flashing acceleration in traffic. Unusual hill climbing ability. The easiest car to steer.

Chassis spring ends mounted in rubber shock insulators. Hydraulic four-wheel brakes always perfectly self-equalized for positive safety.

Chrysler stylish lines and appearance. Roomy bodies. Saddle spring seating. Unusual fineness in fittings and upholstery. Latest shades and tones in color combinations.

Take the wheel of a "62." That's the place where you can most easily prove that it is everything a car should be and does everything a car should do.

T. MELVIN

Strathmore, Alberta

THE CANADIAN-BUILT CHRYSLER FOR CANADIANS

THE SAYINGS AND DOINGS OF MANY PUBLIC MEN

Dr. Edwin H. Hughes, Bishop of the Chicago Methodist Episcopal Church, said:

"Personally I believe that in case of a war by the United States there should be conscription of wealth as well as conscription of troops. Nor am I at all alone in this view. The general conference of my church in 1924 passed a resolution that contained the words, 'We demand the establishment of the principle that conscription of wealth and labor must be the counterpart of any future conscription of human life.'"

"It is only fair, to say the least, that when we ask our younger men to give their blood we likewise ask our older men to give their money and property, and that the money and property should be drafted just as men are drafted."

sold at higher prices or in short measure. It is well to beware of these fellows and the plausible stories that they tell to engage the interest and confidence of their prospects.

They are of many varieties and with as many kinds of merchandise to sell.

Inferior articles of many kinds are peddled about hither and yon during the summer months. The automobile has been a great aid to this kind of chicanery for after he has loaded a few valuable prospects a day's journey will take him far away and beyond the reach of the purser who discovers that he has been victimized.

What better insurance can there be than buying from the home town merchant. If for any reason the article proves unsatisfactory he is ready and willing to correct the trouble and satisfy his customer. Not so with the peddler—he is gone tomorrow or yet today if the chase gets too hot. He is not seeking to satisfy his customer—he is after the money alone. The home town merchant stakes his reputation and his success on his record for fair and honest dealing. He may be found at his place of business day in and day out, year in and year out. There is nothing elusive about him. When folks want support and contributions for this and that, they know where to find him and he gives willingly and generously. Did anyone ever hear of the itinerant merchant contributing a single cent for the advancement of a local cause? There is one real way of insuring good goods at reasonable prices, one way of getting the good value for the dollar expended and that is to buy of the reputable home town merchant.

George Bernard Shaw: "Most Englishmen cannot keep a shop successfully because they regard a customer as an intruder without an introduction."

Roy L. Smith: "The preacher who never suffers from criticism is one who seldom says anything."

Frederick M. Snyder: "Cling to convictions, but wash out your opinions daily."

William Lyon Phelps: "A man can learn more about human nature from the Bible than from living in New York."

The Rev. Bruce Brown: "Any religion that can be killed ought to be killed. Truth is immortal and invulnerable."

Roy L. Smith: "There are times when the greatest wisdom is expressed by silence."

Edward Knoblock: "The modern woman never pays and pays—she charges."

Stanley Baldwin: "The Prime Minister's job is the loneliest in the world."

Viscount Cecil: "We must substitute the peace mind for the war mind."

Sir Eric Geddes: "The British public is slowly but surely learning to fly."

Stanley Baldwin: "Unless every one of us does his duty and is conscious that the work he does—it may be a insignificant unit—goes to make up the whole, unless he realizes that—wherever he is there is a weak spot in the body politic that may spread and cause corruption throughout the whole."

Lord Hewart: "The true function of education is to teach us how to learn. The process ends neither with youth nor with middle age, but ought to continue through every year of our lives."

Abel Hornum: "It takes greater pride in being able to swim the 'crawl' than in his ability to read the 'Piano' in the text."

Irving T. Bush: "If you could take off the streets the traffic which does not belong there, the rest of the traffic would take care of itself."

A. L. WILLIAMS,
Secretary-Treasurer
Village of Standard

KING GOVERNMENT PLAYING DOLL WITH PUBLIC MONEY.

OTTAWA—Within two years of the defeat of a government by reason of a constitutional crisis brought on by a Governor-General, the federal government suffered its smallest majority to vote this season by the same reason. In this case the Governor-General wanted the rehabilitation of the Governor-General's residence in the Citadel at Quebec. A vote of \$100,000 was passed last year for this purpose, largely on the plea that it was part of the ancient fortifications which should be preserved.
When the Minister of Public Works, however, brought down a vote this year of no less than \$150,000 additional the House immediately protested. Active opposition developed to the vote. It turned out that \$70,000 of the amount was for the furnishings and J. D. Chaplin, Conservative, moved that the \$150,000 be reduced by \$70,000. After a long argument in which the front benches were engaged, the amendment was defeated by only a majority of 11. If the Liberal-Progressive had voted against the government a defeat would have resulted. Expenditures Criticized
The significance of the incident lay not so much in the protest against spending so much money on another home for their excellencies but in the Prime Minister's admission that the Governor-General had expressed his desire on the subject. Hon. R. B. Bennett then accused Mr. Mackenzie King of having introduced his Excellency's name into the debate for the purpose of influencing the vote, a proceeding ugly, unparliamentary. Mr. King said the government accepted the responsibility for the expenditure and denied having used the Governor-General's conversation with him for an ulterior motive.
No incident in the present session has caused so much comment in the corridors. When their Excellencies obtained two new railway coaches at a cost of \$250,000 last year there was

a good deal of unfavorable comment. Since then there have been reports of reports of other expenditures, with stores of summer houses in Jasper Park and in Vancouver, the latter being mentioned in the House itself. So that when the ordinary votes for Rideau Hall come up in the Commons they were opposed, a thing which has never happened before. The votes were the same as in previous years but there has been talk of increased expenditures which are included under other heads and not on Rideau Hall account. The first vote for Rideau Hall was \$50,000, and J. S. Woods, worth, Labor, moved an amendment reducing it by \$40,000. The amendment was lost but not without some criticism being indulged in.
There was \$1754 for a tennis court, \$6,000 for a new fence, \$2,000 for decorating the ball room, \$1,000 for additional baths, \$5,000 for dishes and glassware and no less than \$10,000 for additional carpets. There was a further item of \$60,000 for maintenance and \$19,000 for fuel and light.

The Standard will be glad to have the names of victors in town and accounts of various social events for publication. Such communications should be signed and the address of the sender given.
